## **Benefits of using FAFSA-IRS Data Match Retrieval**

### **It's easy!**

It only takes a couple of extra clicks when completing the FAFSA on the Web to utilize the FAFSA-IRS Data Match Retrieval.

### **It's accurate!**

Using the FAFSA-IRS Data Match Retrieval takes the guesswork out of what number from which line on your IRS 1040/1040a/1040ez goes on your FAFSA.

You simply authorize the match, and let the IRS and FAFSA do the rest!

### **It saves time!**

You will get through the FAFSA faster: no more fumbling through IRS 1040 forms looking for the right number!

### **It's secure!**

FAFSA on the Web, in conjunction with the supported web browser (Internet Explorer, Firefox, Chrome, Safari, Opera, AOL) uses Secure Sockets Layer (SSL) protocol to establish a secure session between the browser, IRS, and the FAFSA on the Web server.

### **It may prevent headaches!**

If selected for verification, you will not have to submit an IRS 1040 transcript to your school resulting in less time spent waiting, fewer phone calls... fewer headaches!
